National Safety Week Observed Across All Stations of BSRP Project

The 55th National Safety Week was observed across all BSRP - KRIDE project stations under the theme “Engage, Educate & Empower People to Enhance Safety.” The theme emphasized active participation, continuous learning and individual responsibility to strengthen a proactive safety culture and reduce workplace accidents.

The Safety Week was commemorated with celebrations organized by the three contractors of the BSRP Station projects - ITD Cementation, NCC Limited and RVNL-RPPL JV - across all station locations. The campaign aligns with the initiative of the National Safety Council of India, which promotes Occupational Safety, Health, and Environmental (OSHE) awareness across industries. The week began with inaugural programs including safety pledges, flag hoisting, and orientation sessions, creating awareness on workplace safety among employees and workers in coordination with Concerned GC experts and SEMU department.

Several awareness programs and activities were conducted throughout the week, including blood donation camps, health and eye screening camps, traffic safety awareness sessions, fire safety demonstrations and training on the importance of Personal Protective Equipment (PPE).

To encourage participation and strengthen safety awareness, engaging events such as PPE races, safety quizzes, drawing competitions, mock drills, toolbox talks, safety games, First-Aid & CPR training, safety marathons, and walkathons were also organized.

These initiatives saw active participation from staff, workers, and project teams across stations including Hebbal, Yeshwanthpur, Myadarahalli, Shettihalli, Jakkur, Carmelaram, Huskur, Bellandur and others, reflecting a strong commitment towards maintaining a safe and healthy work environment.

The celebrations concluded with valedictory functions and recognition of safety-conscious staff and workers, appreciating their efforts in promoting workplace safety.

Through these initiatives, the BSRP-KRIDE project continues to strengthen the message that "Safety is Everyone's Responsibility"; "Safety First - Safety Always"
